

1936 C.F. Martin & Co. 0-17

Date

1936

Primary Maker

C.F. Martin & Company

Medium

Wood; Metal; Plastic

Description

1936 C.F. Martin & Co. 0-17, serial number 64331, in natural finish. The guitar features mahogany top, back, sides and neck, and a rosewood fretboard with pearl dot inlays. In a chipboard case. The Martin 0-17 was introduced in 1908, owing its design to Martin's Style 17 model that began production in 1874. The early 0-17 models had a spruce top with mahogany sides and back and were produced concurrently with Style 17 guitars until 1918 when that line was discontinued. The 0-17 returned to Martin catalogs in 1922, now with all

mahogany construction and meant for steel strings. For 1936, Martin built 861 of the 0-17 model guitars. The 0-17 model was discontinued in 1961, with a brief return in 1967.
