Description

2006 Gibson Custom Shop J-45 Vine Rosewood, serial number 01166057, in vintage Sunburst finish. Sitka spruce with Indian Rosewood back and sides, gold hardware, and elaborate custom vine fretboard inlays. In original hardshell case. Gibson introduced its J-45 model in 1942. This acoustic guitar is known for its full, balanced expression, its warm bass, and its excellent projection. The J-45 Vine Custom pays homage to the J-45 of yesteryear, but enhances the original version with tone-enhancing rosewood back and sides and eye-catching

classic vine inlays. Since 1942, the Gibson J-45 has been the first choice of countless guitarists, from blues to country to rock. You get the rich tone of a mahogany body topped with select spruce and excellent playability thanks to the rolled fingerboard edges. Appropriately nicknamed The Workhorse, the Gibson Acoustic J-45 Vine Custom acoustic-electric sounds beautiful in any setting. The top of the J-45 Vine Custom is made from top-grade Sitka spruce, while the back and sides are constructed from pattern-grade rosewood, giving the J-45 Vine Custom full, balanced expression, warm bass, and excellent projection.
